

# IS YOUR MAN OK?

## PROSTATE CANCER

**35,000 MEN A YEAR ARE  
DIAGNOSED AS HAVING**

- Is his night regularly interrupted by the need to wee?
- Is his day disrupted by toilet visits?
- Does he feel the need to rush to the loo, but once there does he find it difficult to start?
- When he urinates is the flow weak, or just a dribble?
- Does he feel he still has more to come when he has stopped?

**IF SO PLAY IT SAFE  
GET HIM TO CHECK IT OUT!**

**Early Diagnosis of Prostate Cancer  
is very important, it can save lives**

### **NOTE...**

Even with the symptoms he may not have prostate cancer.  
But when 10,000 men a year die from prostate cancer through not getting diagnosed early enough.  
DON'T take the risk, DON'T ignore the symptoms
